## EDUCATION

### **Ph.D. Marine Biology and Ecology, January 2022-Present**

*Rosenstiel School of Marine, Atmospheric, and Earth Science, Miami, FL*

- Advisors: Drs. Ian Enochs, Vivek Prakash, Prannoy Suraneni
- Topics: Ecological mechanics, biomineralization, ocean acidification, coral reefs

### **Bachelor of Science in Marine and Atmospheric Science, May 2020**

*University of Miami, Coral Gables, FL*

- Majors: Marine Science and Biology
  - Thesis: “Examining structural and mechanical properties of the threatened coral *Acropora cervicornis*: Effects of nursery grow-out platforms on mechanical strength”
  - Study Abroad: UGalapagos - International Outreach Initiative, Galapagos Islands, Spring 2019
- 

## PROFESSIONAL EXPERIENCE

### **Research Assistant I**

October 2020 - December 2021

*NOAA Atlantic Oceanographic and Meteorological Laboratory’s Coral Program*

*Supervisor: Dr. Ian Enochs, Nathan Formell*

- Developed the *Acropora cervicornis* Data Coordination Hub: an open-access database to assimilate genet-specific datasets and evaluate genet performance and restoration potential
- Designed processing code for automated incubation chambers designed to rapidly assess coral physiology and calcification
- Conducted carbonate budget surveys in support of the National Coral Reef Monitoring Program
- Supported diverse projects within the AOML Coral Program and Experimental Reef Laboratory investigating coral disease, ocean acidification, heterotrophy, and thermal tolerance

### **Undergraduate Research Assistant and Scientific Diver**

September 2018 - May 2020

*Lirman Benthic Ecology and Coral Restoration Lab, University of Miami*

*Supervisor: Dr. Diego Lirman, Jane V. Carrick*

- Led independent research project investigating mechanical strength of coral skeletons and role of coral restoration to increase wave attenuation of degraded reefs to support coastal resilience
- Conducted monitoring of seagrass and mangrove communities and coral restoration projects
- Collaborated with team of researchers and graduate students conducting research projects and ecological assessments of reefs and seagrass beds in South Florida

### **Undergraduate Research Assistant**

August 2017 - May 2019

*South Florida Corals and Climate Change Laboratory, University of Miami*

*Supervisor: Dr. Chris Langdon*

- Analyzed *Acropora cervicornis* under experimental ocean acidification conditions to determine effects on calcification rate, tissue lipid content, symbiont density, and chlorophyll-*a* concentration
  - Maintained coral mesocosms and microcosms in forecasted high CO<sub>2</sub> reef conditions
  - Collected and analyzed seawater samples of experimental aquarium
- 

## COMMUNITY OUTREACH

### **Coral Restoration Educator**

May 2019 - present

*Rescue a Reef, Miami, FL*

- Communicated economic and social value of coral reefs to the public in outreach events and lab tours
- Taught citizen scientists coral restoration principles and techniques during field excursions

## Science Educator

May 2021 - present

Multiple initiatives including, *Skype a Scientist, 4-H*

- Presented coral reef science to 7 school groups aged 8-16 throughout the United States and Canada

## President

May 2019 - April 2020

*University of Miami Scuba Club, Coral Gables, FL*

- Organized twice-weekly dive trips, training courses, and managed gear procurement and maintenance for membership of 400+ students, faculty, and alumni.
- Worked closely with University officials to obtain \$60,000 in annual funding and ensured proper risk management and dive safety policies.
- Previously held roles: Dive Safety Officer (2016-2017), Treasurer (2017-2018), Vice President (2018-2019)

## Divemaster and Science Educator

May 2017 - August 2018

*Florida National High Adventure Sea Base, Boy Scouts of America, Islamorada, FL*

- Guided divers between the ages of 14-18 around local reefs and instilled safe diving practices
- Revised seminar curriculum and taught local ecology, fish and coral identification to a public audience
- Additional responsibilities included dive equipment maintenance, boat handling, boat maintenance

---

## SKILLS

### Research Skills

- Analytical water chemistry: spectrometric pH, DIC, dissolved oxygen, nutrients, total alkalinity
- Calibration, implementation, and analysis of coral reef monitoring instruments (tilt current meters, SeaBird EcoPAR and SeaFET sensors, Sub-surface Automated Samplers, HOBO pendant loggers)
- Maintenance of microcosms and mesocosms for long-term experimental coral observations
- Incubations of corals to investigate respirometry and calcification
- Development of in-house custom experimental equipment: CAD (Onshape, Autodesk Fusion 360), 3D printing, laser cutting, CNC, electronics
- Microscopy/Digital Imaging: scanning electron microscope,  $\mu$ CT-scanning, 3D-scanning, reef-scale photomosaics
- Stable isotope and elemental concentration geochemistry (ThermoFisher Neptune Plus MC-ICP-MS; Agilent 8900 QQQ-ICP-MS)
- Computational modeling (COMSOL Multiphysics)

### Software

- R, Python, MySQL, Adobe Creative Suite, Web Design (HTML, CSS, JavaScript), Amira-Avizo, FlexScan 3-D Scanning, Agisoft Metashape, ArcGIS, ImageJ

### Diving and Marine Operations

- Scientific Diver, University of Miami (AAUS: 100ft, nitrox)
- MOCC Small Boat Operator
- Divemaster and Rescue Diver, Professional Association of Diving Instructors
- Rebreather/DPV/Trimix Cave Diver, Technical Diving International
- Professional First Aid/CPR/AED Certifications, Divers Alert Network/Red Cross
- Emergency Oxygen Provider, Divers Alert Network/Professional Association of Diving Instructors

---

## FIELD EXPERIENCE

- Florida (2018-2023), Dry Tortugas (2021), Galapagos (2019)

---

## AWARDS & RECOGNITIONS

- National Science Foundation, Graduate Research Fellowship, \$147,000
- Dr. Linda Farmer Undergraduate Research Award, \$2,500
- University of Miami Eco Agency Programming Grant for Coral Restoration, \$1,500

---

## Publications

### Peer-reviewed Manuscripts

1. **Kiel PM**, Formel N, Jankulak M, Baker AC, Cunning R, Gilliam DS, Kenkel CD, Langdon C, Lirman D, Lustic C, Maxwell K, Moulding AL, Moura A, Muller EM, Schopmeyer S, Winters RS, Enochs IC (2023) *Acropora cervicornis* Data Coordination Hub, an open access database for evaluating genet performance. *Bulletin of Marine Science* (100). doi:10.5343/bms.2022.0064

### Editorials and Commentaries

1. **Kiel PM**, Prakash VN (2022) Coral physiology: Going with the ciliary flow. *Current Biology* (32):998–1022. doi:10.1016/j.cub.2022.08.049
